

3 PLY PROTECTIVE MASK

Equipmak Face Masks offer the broadest range of styles, features and levels of protection available today. The materials and donning attachments are sonically bonded, and all masks have enclosed nosepieces to assist in conforming to the contours of the face. All face masks are natural rubber latex-free.

These masks provide soft comfortable protection, with no pressure to ears. They are super breathable, fluid-resistant and the triple-layer construction provides a good level of bacterial filtration efficiency and also particle efficiency.
